VULCANIZED ADVANTAGE

Mondo's vulcanization process permanently amalgamates individual layers, using high heat and pressure; the product will never separate, and its biomechanical and physical properties will be consistent. Each vulcanized layer offers individual characteristics and benefits.

- 3-layer Advance Vulcanized (8mm and 10mm) is designed for greater shock absorption, ideal for high impact sports like basketball
- 2-layer Advance New Generation (6mm and 8mm) is ideal for schools, churches and multipurpose rooms

PERFORMANCE LAYER

- Exceeds coefficient of friction standards for improved athletic performance; perfect for basketball and volleyball
- 2mm homogeneous wear layer requires no finishes or coating

COMFORT LAYER

- Provides optimal shock absorption and energy return

KEY BENEFITS

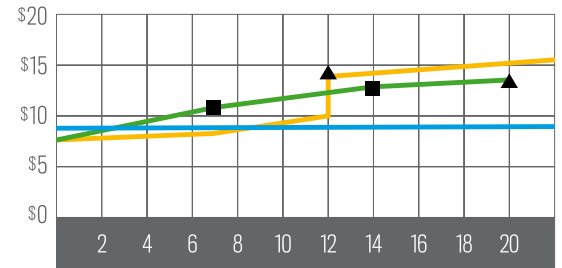

- Dual or triple durometer vulcanized construction
- Will not compress or break down over time
- Withstands static and rolling loads
- 20+ year life expectancy
- Good acoustic properties
- Non-porous surface is easy to maintain
- Lowest total cost of ownership

HEALTH AND SAFETY

- GREENGUARD Gold certified, the most stringent indoor air quality requirement testing
- 100% recyclable
- Fire resistant
- Free of phthalates, PVC, isocyanates, formaldehyde, halogens and heavy metals
- Excellent fungal, bacterial and microbial resistance throughout

PROJECTED LIFE-CYCLE COSTS

Price Listed in Current U.S. Market | per sq. ft. \$

- Foam Backed Vinyl
- Urethane
- Mondo Advance
- Resurfacing
- ▲ Tear Out and Replace

LOAD DISTRIBUTION LAYER

- Excellent reinforcement against bleachers, tables and chairs
- Gives athletes proper foot support and stability by generating proper force reduction
- Formulated for great resiliency

EVERLAY T

- Eliminates abatement cost
- Minimizes construction delays
- Increases thermal insulation
- Increases sound absorption
- Warrantied up to 12 lbs. of moisture
- Allows for temporary installations which can be easily removed for use elsewhere
- Underlayment for moisture problems in renovation
